

ISSA SOUTH TEXAS CHAPTER CALENDAR

HELP HAS ARRIVED!! - The GREAT news is that the ISSA has lots of activities going on. The BAD news is that you probably can't keep track of all the opportunities and schedules.

[Sync the ISSA Chapter events automatically to your Calendar now.](#)

[Click here to access our iCalendar files =>](#)

These files can be downloaded to import into your iCalendar application. Or better yet, you can supply the URL to subscribe for real time updates (if supported by your iCalendar application). So when we update an event on our server, your calendar syncs and shows the update automatically. You can choose to get ALL our events, only Training Events, and other options. So check it out and subscribe now by clicking

Special July Security-After-Hours Event

July Security After Hours Sponsored by NetIQ

McCormick & Schmick's Seafood
Restaurant
1151-01 Uptown Park Blvd
Houston, TX 77056

Wednesday, Jul. 20, 2011
6:00 PM - 9:00 PM

Cloud Computing and Consumerism in a Security Challenged World

Cyber-security continues forcing companies to re-architect security programs. Join NetIQ, as they host this Security After Hours dinner event to discuss security best practices as it relates to cloud computing and consumerism. They will also cover what trends we are seeing as customers implement solutions to address these topic areas to achieve lasting real-world benefits. With NetIQ Chief Security Architect, Michael Angelo presenting, you will be both entertained and informed.

Michael F. Angelo, CRISC, is currently the Chief Security Architect for NetIQ and is the Chair of the ISSA Inter-National webinar committee. He is a technical advisor to the US Department of Commerce and is the chair of the team working on security export controls. Recently he has presented on the issues of Consumerization at both the US and European RSA Conferences. Amongst his many accomplishments he is a former Staff Fellow at Compaq and HP with over 25 years in the security world; he has been a Sigma-Xi distinguished Lecturer; and was named Inventor of the Year for the City of Houston (with 51 granted patents in the area of security).

NetIQ is an enterprise software company with relentless focus on customer success. Leveraging its WorkloadIQ approach, NetIQ helps customers cost-effectively tackle complex information protection challenges such as FISMA, FDCC/SCAP, PCI DSS, HIPAA, SOX and NERC CIP and securely deliver and manage computing services across physical, virtual and cloud computing environments.

Note: By registering for this event, you agree to allow the ISSA South Texas Chapter to share your registration information with the event sponsor, NetIQ.

This event is targeted to ISSA Members who are primarily responsible for information security across their company and are the decision maker around information security products and services. As a courtesy to the sponsor, vendors and resellers should not register to attend.
