## Our Meeting Sponsor:

FileTrek™ provides full operational transparency to companies who need to effectively track and maintain audit control over how corporate intellectual property is moved, shared, and utilized. The solution provides unprecedented visibility of data in motion by monitoring relationships between people, devices and files. Having this level of actionable insight and the tools to create audit trails, file maps and reports for regulatory compliance enable an enterprise to become IP aware. FileTrek is transparent to users and can be scaled across thousands of desktops. The innovative technology provides complete visibility over sensitive information including the location of a file, who has worked on it, how it has been moved and the genealogy relationships of files and their derivatives.
